

Display Boards

Top Knobs is committed to the displaying dealer. In order to buy direct from Top Knobs the dealer needs to have a retail show room and at least four display boards. We limit the number of dealers in each market based on the size of that market. If you would like to buy product, but are not interested in becoming a dealer we will gladly refer you to a local dealer.

Our display boards enable you to maximize your sales efforts by displaying the product in an easy to merchandise format. Each display board is uniform in size (22.5" x 22.5"), available in white or wood finish and provides you with the visual impact to sell this unique hardware. In addition, we are offering three display towers - a 6 or 8 board wire or a 12 board premium wood version as well as a merchandiser in maple finish.

Aspen Collection

Maple & White Display Tower - 12 Board 84" x 26" x 26"

Asbury Collection

Tuscany Collection
